Democracy Project involving Community Groups Advocacy and mobilisation Techniques training, enhanced Civic Voters Education capacity to ensure highly decentralised voter mobilisation by Community Groups. This is based on the failure of the current highly centralised voters' education efforts as can be seen in low voter turn-out in recent elections.

MAJOR PROJECTS FOR 2019:

1. Conference on Political Party Governance in Africa.
2. Review of the teaching of civic education in Nigerian schools since 2008 as well as a National conference on the way forward.
3. Public Sector Expenditure Performance Evaluation Project
4. Convention on Good Governance and Leadership
5. Convention on Peace and Security
